Mark answer

Lady Berry Punch
We apologize for the inconvenience but it seems we have had the honor of your daughter Berry Punch presence on the school grounds during her unofficial visit to the great city of Canterlot. It has since then come to my attention that a small incident occurred with her and one of our unicorn students resulting in the creation of an exact duplicate clone in any mares terms of young Berry Punch. Unfortunately the duplicate seems to be evil. It is the original and has since then managed to charm its way through security and is believed to be headed to its perceived home in Ponyville on foot.

This by itself is not a matter of significant enough level to force direct intervention. However we have come to believe that the duplicate will once its internal store of magic has been drained begin automatically and unknowingly consuming the original life force at an exponential rate to keep itself alive.

This classes it as a Potential Hazard to the well being of a Pony and by law we must ensure that the incident is properly cleaned up to avoid any harm. Unfortunately all of our available staff are currently occupied so you are hereby temporarily hired by the Canterlot University of Gifted Unicorns Arcane Janitorial Department to assist in the proper termination of this magical detritus.

We believe you to be the ideal choice as the duplicate believes you to be its mother and thusly is not expected to struggle or attempt to harm you.

Included with this letter is the standard payment for a completed Arcane Cleanup and a customized package of duplicate termination which should make the task relatively trivial matter.

Please see included the items on this checklist
Two hundred and fifty 250 bits
One 1 soothing mass cassette Hush Now
One 1 medical safe sleeping pill
One 1 straight edge razor

We thank you in advance for your service
Dr Whitewash Arcane Janitorial Department Canterlot University of Gifted Unicorns
